## Profile

As an accomplished Computer Science Engineer with over four years of dedicated experience in full-stack development, I bring a robust skill set focused on React, NextJs, NodeJs, Express, TypeScript, JavaScript, Redux, MySQL, PostgreSQL, Material UI and Tailwind CSS technologies. I also have knowledge in AWS, Firebase, Docker, Terraform, React Native, and the use of agile methodologies to deliver superior results. Recognized for consistently achieving performance excellence, I am committed to upholding the highest standards of clean code practices. Among my most outstanding achievements is the development of automated actions within a logistics system to significantly reduce users' time and improve their experience.

## Experience

### Shippify Inc

Sept 2022 - Now

*Full-stack developer*

Responsible for the development and upkeep of the company's website, as well as the creation and maintenance of modules within the ERP system using React, Redux, JavaScript, TypeScript and CSS. Played a key role in the establishment and maintenance of RESTful APIs, following best practices to ensure robust and scalable communication across systems using NodeJs, Express, Docker and AWS. In addition, it contributed significantly to designing, implementing, and maintaining automated actions in the automations module to significantly reduce users' time and improve their experience.

### Sudamericana de Software S.A

Feb 2022 - Aug 2022

*Full-stack developer intern*

Maintaining a CRM system and web-service to Huawei enterprise. Using PSQL to create scripts in a Oracle database. Working with micro-services and orquestation services to Claro and Huawei enterprises.

### Contabilly S.A

Oct 2021 - Aug 2022

*Full-stack developer*

I spearheaded the development of a second iteration of a health food e-commerce application using React. Concurrently, I managed the maintenance of the RESTful API through Python and Django. Employing GitHub Actions for CI.

## Education

**Graduate** in Computer Systems

2015 - 2018

*U.E. Carrera Sánchez Bruno*

**Eng.** in Computer Sciences

2018 - 2024

*Escuela Superior Politécnica del Litoral - ESPOL*

## Achievements

**Publish a paper: Detecting Speech Disfluencies Using Open-Source Tools in Automatic Feedback Systems for Oral Presentation Training**

May 2024

Proceedings of the 16th International Conference on Computer Supported Education - Volume 2: CSEDU, 213-220, 2024 , Angers, France
